Q & A with FLI Staff
3:00 to 4:00 PM

The parent orientation program offers an opportunity to learn more about the exciting new experiences that await your student as he or she enters FLI at Franklin Academy. While the seminars are not mandatory, we strongly recommend that parents invest the time in order to receive valuable information about FLI, its services, and resources; learn more about the pre-college transition process for students; gain an understanding of the academic, residential, social, and emotional expectations for seniors and postgraduates; be better prepared to support and empower your child; and begin forging a partnership with FLI staff. Seminar #1 will focus on **The Transition to FLI: Program Model and Expectations**. Seminar #2 will look at **Advising, Program Services, and the Practical Application of a Point of Service System**. Seminar #3 will provide an overview of **Post-Secondary/College Advising**.
