The parent orientation program offers an opportunity to learn more about the exciting new experiences that await your student as he or she enters FLI at Franklin Academy. While the seminars are not mandatory, we strongly recommend that parents invest the time in order to receive valuable information about FLI, its services, and resources; learn more about the pre-college transition process for students; gain an understanding of the academic, residential, social, and emotional expectations for seniors and postgraduates; be better prepared to support and empower your child; and begin forging a partnership with FLI staff. Seminars will focus on **The Transition to FLI: Point of Service Program Model and Advising**, and **The Next Steps – Post-Secondary/College Advising and Beyond**. Both seminars will be held in room 506 of the Humanities Building that is located beyond the Dining Hall.
